INDEX OF VOLS. I-XXX

1886-1915

A

Abbott, A. C., further studies upon the pathogenic spirilla of the Schuylkill river, 1897, xii, 144
the adrenal gland and its active principle in relation to cytolysins and antitoxin production, 1903, xviii, 275
the effects of the gaseous products of decomposition upon the health and resistance to infection of certain animals forced to respire them, 1895, x, 16
the etiological significance of the acid-resisting group of bacteria and the evidence in favor of their botanical relation to Bacillus tuberculosis, 1902, xvii, 37
the influence of acute alcoholism on the normal vital resistance of rabbits to infection, 1896, xi, 421
the relative infrequency of acute specific infections in the first year of life with a probable explanation of it, 1900, xv, 11
the results of inoculation of milch cows with cultures of the Bacillus diphtheriæ, 1893, viii, 144
the significance of pathogenic spirilla in American surface waters with a description of one isolated from the Schuylkill river, 1896, xi, 394
Abbott, M. E., on the diplococcoid form of the colon bacillus, 1899, xiv, 300
patent ductus arteriosus with acute infective pulmonary endarteritis, 1914, xxix, 294
Abdomen, inflammatory masses in, simulating malignant growths, 1907, xxii, 170
reflex neuroses connected with, 1897, xii, 354
Abdominal pain from irritation at the internal hernial ring, 1904, xix, 49
thoracic disease and, 1911, xxvi, 33
Abel, J. J., further observations upon the poisons of Amanita phalloids, 1908, xxiii, 57
on the blood-pressure-raising constituent of the suprarenal capsule, 1897, xii, 461
on the efficacy of antimony-thioglycollic acid compounds in the treatment of experimental trypanosomiasis, 1910, xxv, 403
on the removal of diffusible substances from the circulating blood by means of dialysis, 1913, xxviii, 51

Abscess of liver, 1892, vii, 181
pulmonary, diagnosis of, 1913, xxviii, 302
subpectoral, 1900, xv, 491
subphrenic, 1893, viii, 213, 245, 257
a case of, 1896, xi, 217
Abscesses, subcutaneous, caused by Sporothrix schenckii, 1900, xv, 502
Absorption, influence of suprarenal extract on, 1904, xix, 207
Accidents following thoracentesis, 1906, xxi, 177
Acetanilid, poisoning by, 1905, xx, 47, 388
Acetone, influence of different varieties of fat on the formation and excretion of, 1903, xviii, 254
Achylia gastrica, 1909, xxiv, 35
Acid intoxication theory, 1907, xxii, 256
intoxications, pathology of, 1900, xv, 236
Acidoses, a classification of, 1908, xxiii, 31
Acidosis, 1907, xxii, 246, 256
in diabetes mellitus, 1913, xxviii, 469
relation of, to prognosis, 1901, xvi, 595
in phosphatic diabetes, 1907, xxii, 229
Aconite as a vasodilator, 1914, xxix, 321
Acoustic limitations of stethoscope, 1907, xxii, 113
Acro-ataxia, significance of, 1915, xxx, 382
Acromegaly, a case of, with autopsy, 1897, xii, 262
notes of two cases, 1890, v, 241
treatment of, by thyroid extract, 1893, viii, 333
with myxœdema, 1905, xx, 93
Actinomyces group, unidentified member of, 1903, xviii, 427
Actinomycosis of the central nervous system, 1903, xviii, 427
intestinal and hepatic, with leukemia, 1896, xi, 328
Acute ascending paralysis, a case of, with hematoporphyrinuria, 1900, xv, 6
interstitial nephritis, 1898, xiii, 300
leukemia, 1898, xiii, 124
myelitis, some unusual forms of, 1904, xix, 497
pancreatitis, 1908, xxiii, 540, 555
Adami, J. G., the basal principles of vaccine therapy, 1910, xxv, 240
a case of Madura foot disease, 1895, x, 92
on the classification of intoxications from a pathological standpoint, 1901, xvi, 38
on the diplococcoid form of the colon bacillus, 1899, xiv, 300
hemochromatosis, 1899, xiv, 277
Presidential address, 1912, xxvii, 1
Adams, J. F. A., substitutes for opium in chronic diseases, 1889, iv, 104
Adams, S. S., nitrobenzol poisoning, 1912, xxvii, 503
Adams-Stokes syndrome, bradycardia in, 1915, xxx, 63
prolongation of As-Vs interval in, 1915, xxx, 63
Addis, T., urobilin; its clinical significance, 1913, xxviii, 617
Addison's disease, a case of, treated with suprarenal extract, 1900, xv, 65
a study of, 1893, viii, 35

Addison's disease with and without tuberculosis of the adrenals, 1904, xix, 316
Address of President. *See* President, address of.
Adenoma of liver, 1897, xii, 493
malignant, a case of, 1904, xix, 308
Adherent pericardium, diagnosis of, 1913, xxviii, 254
Adhesions, perigastric and duodenal, gastromotor insufficiency and, 1907, xxii, 451
Adiposis, 1909, xxiv, 499
Adler, I., intravenous injections of nicotine in rabbits, 1906, xxi, 63
observations on cardiac syphilis, 1898, xiii, 73
preliminary note on some effects of tobacco on the tissues of rabbits, 1902, xvii, 25
studies in experimental atherosclerosis, 1914, xxix, 512
on so-called experimental arteriosclerosis, 1907, xxii, 683
Adrenal gland. *See* Suprarenal gland.
glands, a study of, 1893, viii, 35
tuberculosis of, 1893, viii, 35
primary carcinomatoid tumor (mesothelioma) of, 1902, xvii, 627
Adrenalin, clinical and experimental observations on, 1909, xxiv, 520
glycosuria, 1902, xvii, 570
production of vascular lesions in rabbits by, 1906, xxi, 792
Agnew, J. G., a new method for studying the brachial pulse, 1912, xxvii, 188
Agramonte, A., experimental yellow fever, 1901, xvi, 45
Ailurophobia, 1905, xx, 4
Air tract, upper, considerations in certain diseases of, 1897, xii, 83
Albuminuria, apart from nephritis, fever or obvious cause for renal irritation, 1894, ix, 159
in normal children, 1910, xxv, 287
relation of, to life assurance, 1888, iii, 171
Albuminuric retinitis following purpura hemorrhagica rheumatica, 1895, x, 89
Albumosuria in myxœdema, 1898, xiii, 8
of the pernicious anemia type, 1902, xvii, 171
significance of, in practice, 1898, xiii, 8
Alcohol, action of, in disease, especially upon the circulatory system, 1903, xviii, 402
antagonism of, to carbolic acid, 1907, xxii, 734
in infections, bacteriolytic power of blood and, 1903, xviii, 391
Alcoholic beverages, comparative toxicity of, 1911, xxvi, 60
Alcoholism, acute, influence of, on resistance of rabbits to infection, 1896, xi, 421
symptoms and treatment of, 1892, vii, 62
Alford, L. B., the influence of diet upon the necrosis caused by hepatic and renal poisons, 1914, xxix, 264
Allen, A. R., itching without skin lesions; urobilinuria; erythrocytolysis, 1906, xxi, 290
Allen, F. M., prolonged fasting in diabetes, 1915, xxx, 323
Amanita phalloids, poisons of, 1908, xxiii, 57
Amaurotic family idiocy, 1909, xxiv, 12
Ammonium compounds, comparative toxicity of, 1902, xvii, 8

Amœbæ, effects of ipecac on, 1910, xxv, 515, 1915, xxx, 375
Amœboid bodies in the blood of vaccinated monkeys and children, and in variola, 1897, xii, 291
Amoss, H. L., organic matter in the expired breath, 1912, xxvii, 18
Amputations, intra-uterine, 1914, xxix, 528
Anaphylaxis, bronchial asthma as a phenomenon of, 1910, xxv, 66
chronic protein intoxication and, 1915, xxx, 245
relation of, to the toxemias of pregnancy, 1908, xxiii, 54
serum, danger of, treatment and, 1913, xxviii, 95
disturbances in heart-beat of dog caused by, 1913, xxviii, 545
a study in, 1912, xxvii, 237
Anatomy, normal living, in early life, 1907, xxii, 67
Anders, J. M., the relation of glycosuria to pituitary disease and the report of a case, with statistics, 1914, xxix, 115
stenosis of the duodenum: a statistical study with the report of a new case, 1912, xxvii, 297
Anderson, J. F., antitoxin and post-diphtheritic paralysis, 1907, xxii, 26
influence of the ingestion of dead tubercle bacilli upon infection, 1909, xxiv, 139
postvaccination tetanus, studies in its relation to vaccine virus, 1915, xxx, 386
the problem of typhus fever in the United States, 1913, xxviii, 81
the relation of anaphylaxis to the toxemias of pregnancy, 1908, xxiii, 54
Anemia, aplastic, 1906, xxi, 307
bacillus aërogenes capsulatus and, 1906, xxi, 725
bacterial processes in intestine in, 1906, xxi, 725
in children, three cases of, 1908, xxiii, 107
elongated and sickle-shaped red cells in, 1910, xxv, 553, 1915, xxx, 200
essential, forms of, treatment of, 1896, xi, 110
open-air treatment of, in children, 1915, xxx, 405
pernicious, albumosuria in, 1902, xvii, 171
cases of, with special reference to the blood findings, 1900, xv, 308
clinical notes of cases of, 1900, xv, 346
cord lesions in, 1901, xvi, 280; 1910, xxv, 378
diagnosis of, 1901, xvi, 300
erythrophagocytosis and myeloblastosis in, 1915, xxx, 547
further notes on a case of, 1901, xvi, 300
hemoglobinemia in, 1915, xxx, 547
is it of infectious origin? 1911, xxvi, 288
observations on the nature and treatment of, 1901, xvi, 419
pathology of, 1891, vi, 239
with special reference to changes in the hemolymph nodes, 1902, xvii, 496
prolonged remission in, 1910, xxv, 562
relation of atrophy of gastric tubules to, 1887, ii, 179
report of progress of cases of, 1901, xvi, 280
spinal cord lesions in, 1901, xvi, 280; 1910, xxv, 378
splenectomy for, 1914, xxix, 470

Anemia, pernicious, studies in, 1914, xxix, 476
a study of 110 cases, 1900, xv, 334
treatment of, 1896, xi, 110
tricuspid insufficiency in, 1906, xxi, 80
of Texas cattle fever, red cells in, 1891, vi, 263
type, with splenomegaly, 1910, xxv, 23
relation of chronic enlargement of the spleen in infancy to, 1903, xviii, 207
to chlorosis, 1889, iv, 174
severe, with atheroma and evidences of aneurism without anatomic explanation for them, 1902, xvii, 182
with elongated and sickle-shaped red blood cells, 1915, xxx, 200
splenic, 1902, xvii, 429
splenectomy and recovery, 1908, xxiii, 165
varieties of, 1904, xix, 174
with early and late stages of hepatic cirrhosis, 1903, xviii, 522
Anesthesia in hysteria, study of, 1890, v, 151
local, in the diagnosis of lesions of lower spinal cord, 1892, vii, 223
Aneurism, abdominal, simulated in a case of severe anemia, 1902, xvii, 182
of abdominal aorta, 1887, ii, 115
aortic, extension of, into and between the walls of the heart, 1901, xvi, 127
other conditions than, causing tracheal tug, 1901, xvi, 127
rupture of, into vena cava, 1906, xxi, 142
simulation of, by metastasis of hypernephroma to manubrium, 1908, xxiii, 42
treatment of, by wiring and electricity, 1910, xxv, 332
varicose with vena cava, 1906, xxi, 151
with recurrent fever, 1914, xxix, 309
with rupture into the superior vena cava, 1900, xv, 532
x-ray examination in, 1899, xiv, 168
dissecting, of heart, 1901, xvi, 127
Angina pectoris, chronic interstitial nephritis and, 1888, iii, 207
its relation to dilatation of the heart, 1897, xii, 70
simple acute, virulence of diphtheria bacilli found in, 1896, xi, 249
Angioneural arthroses, 1913, xxviii, 739
Angioneuroses, visceral, 1909, xxiv, 527
Anguillula aceti mistaken for strongyloides intestinalis, 1902, xvii, 161
Anthrax in rabbits, treatment of, by injection of yeast nucleinic acid, 1896, xi, 72
toxin, 1902, xvii, 313
Anti-enzymes, 1910, xxv, 600
Antidiphtheria serum, effect of freezing on, 1898, xiii, 333
Antimeningitis serum, analysis of 400 cases treated by, 1908, xxiii, 76
Antipyretic treatment of fever, 1887, ii, 69
Antipyrine in the treatment of typhoid fever, 1887, ii, 77
Antisepsis in midwifery, 1890, v, 81
Antiseptic medication, 1888, iii, 339
Antiseptics, intestinal, 1907, xxii, 200
Antitoxic sera, elimination of deleterious and retention of antitoxic effects of, 1900, xv, 380

Antitoxic serum in tuberculosis, 1898, xiii, 111
Antitoxin, absorption of, 1912, xxvii, 434
diphtheria, dose of, 1912, xxvii, 434
in blood of horses not injected with toxin, 1896, xi, 62
preparation of, 1895, x, 299
production of, by passage of electricity through diphtheria cultures 1896, xi, 66
effect of, on kidney, 1898, xiii, 399
postdiphtheritic paralysis and, 1907, xxii, 26
production, relation of adrenal gland to, 1903, xviii, 275
refined diphtheria, 1906, xxi, 259
tetanus, dosage of, 1912, xxvii, 434
intraspinal administration of, 1915, xxx, 213
treatment of diphtheria by, 1895, x, 312
pneumonia, 1898, xiii, 93
Antityphoid inoculation in nurses, 1912, xxvii, 338
vaccination in the army, 1913, xxviii, 449
Anuria after scarlet fever, 1910, xxv, 547
Aorta, abdominal, aneurism of, 1887, ii, 115
aneurism of, extension of, into and between walls of heart, 1901, xvi, 127
other conditions than, causing tracheal tug, 1901, xvi, 127
rupture of, into vena cava, 1906, xxi, 142
treatment of, by wiring and electricity, 1910, xxv, 332
varicose, with vena cava, 1906, xxi, 151
with recurrent fever, 1914, xxix, 309
with rupture into the superior vena cava, 1900, xv, 532
x-ray examination in, 1899, xiv, 168
dilatation of, 1910, xxv, 344
superior vena cava and, varicose aneurisms of, 1890, v, 45
Aortic insufficiency, changes in circulation in, 1911, xxvi, 327
difference in blood-pressure between arm and leg, 1910, xxv, 91
frequency and diagnosis of Flint murmur in, 1901, xvi, 393
valves, bicuspid, 1886, i, 185
Aperients, effect of, on peristalsis of stomach and intestines, 1906, xxi, 254
Aphasia, cerebral localization of, 1907, xxii, 315
classification of, 1907, xxii, 315
relation of auditory centre to, 1908, xxiii, 116
Aplastic anemia, 1906, xxi, 307
Apoplexy, fever in, 1894, ix, 144
in its relation to the temperature of the body, 1894, ix, 144
Appendicitis, the duty of the physician concerning, 1890, v, 27
heredity of, 1901, xvi, 99
simulated by general gonococcal peritonitis, 1903, xviii, 202
in typhoid fever, 1890, xv, 193
Appendix, vermiform, perforating inflammation of, 1886, i, 107
Arhythmia, cardiac, 1888, iii, 232
a clinical study of, 1908, xxiii, 423

Arterial degeneration, experimental, 1906, xxi, 491
disease, relations of, to tissue changes, 1891, vi, 179
to visceral disease, 1891, vi, 154
Arteries, coronary, experimental ligation of, 1908, xxiii, 83
rheumatic fever and, 1912, xxvii, 181
Arteriosclerosis, alimentary toxins and, 1906, xxi, 73
cardiac hypertrophy and, 1910, xxv, 45
chronic interstitial nephritis and, 1915, xxx, 627
clinical studies in, 1904, xix, 512
closure of ductus arteriosus and, 1907, xxii, 213
experimental, 1905, xx, 513; 1907, xxii, 683
nervous manifestations of, 1907, xxii, 716
radial artery in, 1907, xxii, 694
Artery, wall of, resistance of, to compression, 1910, xxv, 456
Arthritis deformans with multiple fibromata of the nerves, 1900, xv, 470
spinal forms of, 1901, xvi, 687
skeleton in, 1901, xvi, 690, 691
in early life, defective development from 1912, xxvii, 332
experimental, from a streptococcus from a case of rheumatic fever and chorea, 1904, xix, 457
gonorrhœal, 1895, x, 141
in hemophilia, 1905, xx, 15
pneumococcic, 1902, xvii, 112
Arthroses, angioneural, 1913, xxviii, 739
Artificial immunity in experimental tuberculosis, 1903, xviii, 97
As-Vs interval, prolongation of, in Adams-Stokes syndrome, 1915, xxx, 63
Ascites, acute, with tubercle bacilli, 1897, xii, 493
chylous, 1907, xxii, 464
melanosarcoma of liver and, 1898, xiii, 385
pseudochylous, 1911, xxvi, 380
a study of, 1911, xxvi, 8
in typhoid fever, 1908, xxiii, 59
Ash free diet, experiments with, 1908, xxiii, 92
Ashford, B. K., studies in moniliasis of the digestive tract in Porto Rico, 1915, xxx, 490
Astasia-abasia, 1899, xiv, 154
Asthma, bronchial, as a phenomenon of anaphylaxis, 1910, xxv, 66
Ataxia, acro- and proximo-, significance of, 1915, xxx, 382
hereditary, description of brains and spinal cords of two brothers with, 1903, xviii, 637
vasomotor, 1902, xvii, 644
Atherosclerosis, experimental, studies in, 1914, xxix, 512
Athletics, effects of, on the heart and circulation, 1899, xiv, 331
Atkinson, I. E., bradycardia in acute rheumatism, 1891, vi, 292
forms of typhoid fever simulating remittent malarial fever, 1887, ii, 209
Atropine, effect of, on respiration, 1914, xxix, 69
Auditory centre, relation of, to aphasia, 1908, xxiii, 116

Auer, J., on the action of digitalis and digitalis-like substances on the right ventricle, 1912, xxvii, 96
disturbances of the heart-beat in the dog caused by serum anaphylaxis, 1913, xxviii, 545
the functional effect of experimental intraspinal injections of serums with and without preservatives, 1914, xxix, 359
the influence of suprarenal extract upon absorption and transudation, 1904, xix, 207
respiratory changes of pressure at the various levels of the posterior mediastinum, 1909, xxiv, 291
Auricular fibrillation, paroxysmal irregularity of heart and, 1906, xxi, 682
